## Are you fit for work?

### OneSteel plan to roll out a National Fit for Work policy

- Onesteel has literally dumped on it's workforce a National Fit for Work policy without any prior notice to the AWU or its members.
- The AWU is disturbed that without union input and knowledge a National Fit for Work policy has been developed by Onesteel.
- Correspondence has been sent by the AWU to Onesteel highlighting a number of concerns and demands.

#### The AWU's Key Concerns are:

The proposed policy and the scope of whom it is intended to apply to.

Any proposed application of urine based testing.

Any proposed application of random testing.

Rehabilitation processes and procedures.

#### The AWU's demands are:

- A meeting be convened ASAP between the AWU and Senior OneSteel management to discuss any proposed National Fit for Work policy.
- That the AWU does not agree with any of the roll out dates proposed by OneSteel for a National Fit for Work policy and expects that OneSteel will cease any proposed roll out immediately.

If any members are asked to submit to the proposed policy by OneSteel they are urged to immediately contact their AWU Branch Official.
