Switch to Direct Debit today protect yourself from LNP cuts in health.

Health Minister Lawrence Springborg has announced that he is considering cancelling payroll deductions for union membership in Queensland Health within the next few weeks.

This is a direct attack on your AWU membership and is a union-busting strategy, plain and simple.

Campbell Newman and Lawrence Springborg are seeking to punish you as a union member because you are standing up for your rights at work and against the outsourcing of public sector jobs and services. This is straight out of the Liberal's playbook.

Lawrence Springborg has attacked the integrity of the entire public health system through his Health Blueprint. The message from the LNP has been clear since day one – they think workers are dispensable and treat them as numbers on spreadsheets.

Don't forget, Lawrence Springborg said that if you weren't on his contracting out train you were going to end up under it!

There is no doubt that the Government wants to make it hard for you to maintain your membership with the AWU because they know you are going to need it. The Blueprint clearly identifies that your job security and entitlements are at risk under this LNP Government.

- ❖ stopped all meaningful consultation with workers,
- ❖ wants to gift the public health system to his dodgy business mates and
- ❖ now seeks to remove your rights to union membership.
